A Family For Every Child's (AFFEC) Mentor Program is expanding its reach by connecting with children's schools in order to help them perform better academically and remain on track to graduate. With support from the Oregon Community Foundation, AFFEC has brought on a new staff member who is in charge of conducting school-based community outreach, connecting with children's school counselors, and supporting our mentors in their mentee's academic life.

This will allow AFFEC to help children and teens see greater academic success, and feel more supported by caring adults in their lives. Currently a little more than half of foster youth obtain a high school diploma due to difficulties when transitioning from home to home, and mentors have the potential to ease those transitions with schools and other institutions. Thanks to the Oregon Community Foundation, AFFEC will now be supporting mentors and youth to help ensure children not only receive their diploma, but exceed academic expectations.

In addition to providing more academic support, AFFEC is launching a Mentor Assisted Life Skills Program which will pair mentors with youth to help develop their life skills. Mentors and mentees will be offered a curriculum that includes information on how to handle one's finances, healthcare, cooking, and more. This program will better prepare children who are at risk of "aging out" of foster care for living on their own. These classes, in conjunction with the mentors' support, will aid in the success of each child becoming a self sufficient adult!

If you are interested in volunteering for our Mentor Assisted Life Skills or educational outreach programs, please email the Permanency Director, Caitlin Baird at [caitlin@afamilyforeverychild.org](mailto:caitlin@afamilyforeverychild.org).
