

A FAMILY FOR EVERY CHILD MENTOR PROGRAM

The mission of A Family for Every Child's mentor program is to provide a foster child with a dedicated, nurturing, caring individual who will be a friend to talk to and a companion to have fun with. It is essential that any child has a reliable support system in their lives and a mentor has the opportunity to be a constant source of stability and encouragement to a foster child in need of guidance and direction. By being a positive role-model, a mentor can instill in the child the confidence and creativity that will allow them to succeed in life.

Can you make a commitment to a child?

If you are thinking about adopting or being a foster parent, this is a great way to learn more about how the system operates while spending time with a foster child. Great experience to write on your home study.

We ask for a one year commitment and that you spend at least ten hours a month with the child.

Mentoring relationships can play an enormous role in helping foster youth reach their full potential!!!
