

Matching Assistance Program for Professionals *—Adoption Workers—*

◆ Family Matching Made Easy

About the Matching Assistance Program

Our Matching Assistance Program (MAP) is a free matching program for nationwide home study-approved families seeking to adopt from foster care. We work alongside nationwide families and their adoption workers to help match them with waiting children in foster care. Since our program's inception in 2010, we have served over 1,000 families and helped match over 120 families with children on our site.
