

## OUR SUCCESS

Thirty Three children were featured in our first opening in November 2006. The majority of those youth have joined their forever families. Now, 2 years later, over 100 youth have benefitted from the assistance of the Heart Gallery to find their forever families. Help us continue this success. Consider opening your heart to a child.

# Heart Gallery

*"The best and most beautiful things in the world cannot be seen or even touched. They must be felt with the heart." Helen Keller*

**The Heart Gallery** is a local non-profit organization made up of volunteers that devote their time, energy and lives for the love of children. Professional photographers have volunteered their time and talent taking beautiful and compelling portraits. Local companies and organizations are opening their hearts and their doors, allowing the Heart Gallery to be shown. We hope to touch the hearts and lives of people, to assist in finding safe and permanent homes for children in our foster care system. One face, one voice, one life at a time.

## ***A Picture Is Worth A Thousand Words***

Looking at their pictures you cannot help but notice their eyes, like looking through a window into their soul. You do not know them yet you cannot forget them. These are our children, and though adoption is not for everyone, we all have a responsibility.

They deserve a second chance at life, a family, a future and a healthy foundation to build upon. We must come together as a community for a cause greater than ourselves...

We cannot change history but what we can do today will forever change tomorrow.
